E-Post Card – Feral Hog/Predator Hunts

The James E. Daughtrey WMA covers over 31,000 acres including Choke Canyon Reservoir between Three Rivers and Tilden in Live Oak and McMullen Counties. The WMA was named in honor of State Game Warden James E. Daughtrey of Tilden who was fatally injured in an automobile collision while pursuing game law violators. Approximately 6,000 acres of uplands are open to public hunting by Annual Public Hunting Permit at conservation pool. The terrain is generally flat with thorny brush dominated by mesquite, black brush and cacti. E-post card hunts for archery deer, feral hogs and coyotes will be limited to specific compartments on drawn dates as published annually. Only specific areas identified during orientation will be open. Some areas are accessible only by boat or significant hiking by foot. Hunters should take this into consideration before applying for this hunt. Some roads provide access to limited areas.

A hunter orange vest and headwear is required for hunts with firearms. **All hunters must attend a mandatory orientation at 11:00 a.m. on the first day of the hunt period.** Hunt ends at dusk or on the last day of the hunt period. Stand-by positions may be available. Hunters must fill out a harvest questionnaire at the end of the hunt. A primitive campground is located at the area headquarters and will open the evening before the start of the hunt. Drinking water and electrical hookups are not available. A limited number of fire rings and picnic tables are provided on a first come, first served basis, as is one rented chemical toilet. There are no cold storage facilities available on site. Camping is also available at Choke Canyon State Park – Calliham Unit (361/786-3538).
